BEAUTY

A large, vibrant pink flower is in the lower-left foreground. Behind it and to the right are several smooth, white, rounded spa stones. The background is a soft, out-of-focus white.

THE ORGANIC SPA

It all began 25 years ago with a vision of an exclusive spa product line that – in harmony with nature – would give people not only beauty but also well-being, experiences and sustainability.

Pursuing this vision, The Organic Spa, a family business run by Jörg Demuth, fulfils all of these aspirations. Born into a family of academics in which knowledge of the positive effects of aromatherapy had already been passed down across many generations, he learned even as a youngster all about the unique power of plants. Since then, Jörg Demuth has sought out the best herbal agents on countless journeys all over the world.

ANIKA ORGANIC LUXURY is the essence of this search. ANIKA ORGANIC LUXURY – a manufactory built in the heart of Europe, inspired by the proximity to France, refined using the best ingredients in the world.

ANIKA ORGANIC LUXURY is a unique, bespoke organic treatment system for face and body, using rituals, massages and sensations that can be found and experienced in select spas all around the globe.

ANIKA ORGANIC LUXURY

- stands for purity, honesty, ethics and integrity
- stands for experience, devotion and beauty
- stands for tradition, without overlooking the spirit of the time
- stands for people who seek luxury with value
- stands for sustainability, fair trade and certified organic farming

OUR GUIDING PRINCIPLE

ANIKA ORGANIC LUXURY – In harmony with nature

This has been our company's guiding principle from the outset, impacting universally on all areas of our work. From operational processes within the company itself and the use of renewable sources of energy, all the way to a sustainable packaging policy, ANIKA stands at all times for respectful interaction with nature.

We are very conscious that every business activity has an influence on our environment and therefore attempt to keep our 'ecological footprint' as small as possible.

Corporate social responsibility is firmly rooted within our company.

Corporate social responsibility means to us:

- Dealing with our sources of raw materials in a manner that conserves resources
- Acquiring 100% of our energy from renewable sources
- Avoiding waste and recycling waste that does get produced separately in order to feed it back into the biological cycle
- Buying all paper for cosmetic packaging and correspondence only from sustainably managed forestry and paper mills (FSC)
- Printing with organic inks free of any mineral oils
- Involving our staff, partners, suppliers and customers in our success

We devote particular attention to the selection of herbs and flowers for our plant extracts and oils, which make our products so prized. We are proud of this careful way of dealing with our precious, manually prepared raw materials.

Our many years of collaboration and personal contact with our growers and plant suppliers guarantee us, and above all you, the perfect quality of our raw materials. We seek to work with local people and NGOs (non-governmental organizations), support Grassroots Projects and initiate local, sustainable fair trade. By adopting this policy we are helping biodiversity, maintaining precious ecological reserves and giving people back the ability to determine their own destiny.

We reduce poverty not by aid, but trade!

It is no coincidence that the UNCTAD/WTO* report names ANIKA as one of the leading companies in this field.

NATURE

ANIKA - CONTROLLED QUALITY

The beneficial power of plants is the soul of the ANIKA products. Great attention is therefore paid to the selection of herbs and flowers for the organic plant extracts. The organic herbs are harvested in line with lunar phases and dried quickly and carefully on the same day. They are enriched in the traditional way with organic ethanol and made into extracts rich in active agents in accordance with the NATURLAND organic guidelines.

ANIKA has been from the outset one of the 'BioNeers' of the organic spa industry. We were the first European producer to have its plant extracts certified by BIOLAND (1999). All of our plant oils, e.g. salween and avocado oil, are likewise strictly organically certified.

Even the exotic Assai palm oil and the cupuaçu butter are organically certified and come from an Amazonian project that helps the local people living in the area. ANIKA even buys rare berry seed oils, such as red currant, strawberry, raspberry and blueberry from certified organic growers, which is quite unique.

ANIKA ORGANIC LUXURY is free of any

- Parabens and any other synthetic preservatives
- Silicones that dry out the skin and if allowed to get into water have a toxic effect on fish
- Paraffins that are known to have been obtained from crude oil
- Synthetic colorants and fragrances
- Petrochemical raw materials

Any use of these ingredients would contradict the quality and thus the exclusivity of our skin care lines.

None of our products is or has been tested by us on animals, and you have our promise that this is a policy we will continue to pursue.

ACTIVE INGREDIENTS SYSTEMS

The ANIKA ORGANIC LUXURY system of active agents is based on the synergistic interplay of valuable and powerful agents from choice organic herbs, select oils and precious flower essences.

This means that we are putting our faith not in one single active agent, but in a diverse range of highly effective, multi-acting plant-based agents. Tocopherols, vitamins, phytosterols and other active agents are usually produced synthetically. Not for ANIKA ORGANIC LUXURY. Our active agents do not come from the test tube, but straight from nature.

For example:

- Organic tocopherols from Assai palm trees*
- Organic vitamin C from acerola cherries*
- Bioflavonoids from bitter orange*
- Organic phytosterols from pomegranate seed oil*
- Organic omega and alpha-linolenic fatty acids from berry seed oils*

All of our plants come from certified organic growers. We are confident that you will notice this difference on your skin. ANIKA ORGANIC LUXURY products contain no water. Instead they exclusively contain pure aloe vera sap – certified organically grown. This is rich in micronutrients and thus aids your skin's natural process of regeneration.

ANIKA ORGANIC LUXURY products include a natural, innovative anti-age complex which is contained in all your care line products. Therefore the products interact synergistically, complementing and reinforcing each other.

Whether it's a question of refreshing and soothing dry skin, calming sensitive skin or stimulating cell renewal – we have the know-how to give your skin what is best.

Suppleness and elasticity, reduction of the first wrinkles and a balanced equilibrium are the visible results. You are allowed to age, and your skin is allowed to age. ANIKA ORGANIC LUXURY enables you, however, to see aging as a pleasurable and positive process.

VITALITY

NOURISHING & MOISTURIZING You have delicate skin lacking in vitality that gets tight occasionally and is showing the first signs of wrinkles.

Put simply, your skin is thirsty! What it urgently needs is adequate moisture! Our VITALITY line's care products give your skin back the natural ability to control its balance itself. The result: well-regulated blood circulation gives the skin a supple appearance and neither stress nor external factors can harm it any more.

Subtly composed organic plant extracts, such as Iceland moss*, ginkgo*, acerola cherry* and licorice root*, finest organic seed oils with essential omega fatty acids* from strawberries*, blueberries*, raspberries* and cranberries*, plus the natural organic tocopherols of Assai palm trees promote regeneration and new cell formation. In synergistic interplay with bioflavonoids*, antioxidants* such as guarana* and ginkgo* protect the skin from harmful environmental factors and premature aging. Valuable organic plant extracts encourage the formation of new cells and smooth tiny wrinkles! The precious flower essence of genuine Damascene rose* vitalizes and stimulates skin regeneration in an unsurpassed manner.

In addition to exclusive, sustainable care products, it is our aim to offer you corresponding treatments of sublime pleasure to enhance your total experience. Fresh, airy fragrances and the professional hands of our trained therapists make any ANIKA treatment an ultimate experience!

CREAM ANTI-AGE COMPLEX HYDRATING & NOURISHING

This moisturizing day care with rich avocado* and cupuacu* makes your skin look velvety soft. Essential omega fatty acids* of strawberries*, blueberries* and raspberries*, as well as the natural organic tocopherols of the Assai palm*, revitalize the cells and promote the regeneration process. An organic ANTI-AGE complex of Iceland moss* and pomegranate*, enriched with bioflavonoids* and phytosterols*, protects the skin against premature aging and reduces the formation of fine lines.

INTENSIVE CREAM ANTI-AGE COMPLEX HYDRO REGULATING

Pamper yourself with an especially intensive and nourishing moisture cream! High-grade neroli* and balancing Geranium bourbon* from Madagascar moisturize your skin and give you a velvety complexion. Precious sea buckthorn oil* and rich avocado oil* smoothes skin and maintains natural elasticity. A highly concentrated organic ANTI-AGE complex of the finest organic seed oils, such as raspberry* and cranberry*, with essential omega fatty acids and organic tocopherols* promote the regeneration and the formation of new cells. In synergistic interaction with bioflavonoids*, antioxidants* such as guarana* and ginkgo* protect the skin against damaging environmental influences and premature aging.

HARMONY

SOOTHING & SMOOTHING Your skin looks natural and healthy. It has a silky to fine-pored appearance and a generally firm character. Well-regulated blood circulation ensures a fresh complexion. However, if your skin is sensitive, many factors, such as stress and environmental impurities, can cause irritation. This results in red patches, spots and itchiness. Now the skin appears thinner, more finely pored and dry. A soothing care product is required. HARMONY provides a gentle balance and gives your skin back its freshness.

Subtly composed organic plant extracts, such as yarrow*, calendula*, white tea*, acerola cherry* and licorice root*, finest organic seed oils with essential omega fatty acids* from strawberries* and red currants*, plus gentle sallow thorn oil* stimulate regeneration and new cell formation. In synergistic interplay with bioflavonoids*, antioxidants* such as guarana* and ginkgo* protect the skin from harmful environmental factors and premature aging. Valuable organic plant extracts encourage the formation of new cells and tiny wrinkles get smoothed away! The precious flower essence of wild, hand-picked lavender* soothes and protects your skin.

In addition to exclusive, sustainable care products, it is our aim to offer you corresponding treatments of sublime pleasure to enhance your total experience. Fresh, airy fragrances and the professional hands of our trained therapists make any ANIKA treatment an ultimate experience!

ENERGY

PURIFYING & TONIFYING Caused by excessive production of sebum, your skin has lost its balance. It appears oily and large-pored and is inclined to develop impurities.

ENERGY absorbs excess skin grease, gently removes cornification and normalizes sebum production.

The ANIKA ORGANIC LUXURY line of skin care products inhibits inflammation, is soothing and clears away impurities. The skin's texture becomes visibly honed.

Subtly composed organic plant extracts, such as chamomile*, Indian pennywort*, rosemary* and melissa* from Provence regulate the function of the sebaceous glands and dispel bacteria.

A highly effective ANTI-AGE complex made of pomegranate seeds*, guarana* and licorice root* stimulates the regeneration of keratin and collagen. In synergistic interplay with the bioflavonoids of bitter orange*, antioxidants* such as guarana* and ginkgo* protect the skin from harmful environmental factors and premature aging. A unique active agent complex within a base of pure aloe vera sap incomparably harmonizes and hones your complexion. The perfected result is skin that looks smooth and clear.

In addition to exclusive, sustainable care products, it is our aim to offer you corresponding treatments of sublime pleasure to enhance your total experience. Fresh, airy fragrances and the professional hands of our trained therapists make any ANIKA treatment an ultimate experience!

CREAM ANTI-AGE COMPLEX PURIFYING & TONIFYING

This light and mattifying emulsion harmonizes your skin round the clock! It contains a unique combination of multi-active plant extracts* and fresh scents such as grapefruit* and lime*. Antibacterial bitter orange* and stimulating guarana* ward off bacteria and regulate surplus sebum production. Inflammations are reduced! In combination with the natural organic tocopherols of the Assai palm*, calming licorice root* and protective Iceland moss* revitalize the cells and promotes the regeneration process.

DEEP CLEANSING MASK PURIFYING & BRIGHTENING

This intensively clarifying moisture mask absorbs surplus sebum and bacteria. Hornifications are removed. Your skin can breathe again! Antioxidants such as guarana* and ginkgo*, as well as finely combined organic plant extracts, protect the skin against damaging environmental influences. In synergistic interaction with bioflavonoids from bitter orange*, Gotu kola* and rosemary* regulate the functioning of the sebaceous glands and ward off bacteria. A fine, clear complexion is the convincing visible result.

APPLICATION & TIPS

CLEANSING MILK

APPLICATION: Place 4–5 pumps of the mild emulsion onto a pad or your hand, moisten and cleanse face with gently circling movements. Wash your face this way morning and night. This cleansing prepares your skin ideally for absorbing active agents applied later.

ELIXIR ANTI-AGE COMPLEX

APPLICATION: Spray 3–4 splashes of ELIXIR onto a pad or spray it directly as a fine mist over your face while keeping your eyes closed. Then gently pat in.

TIP: Instead of applying a cream at night, it is advisable to spray on the ELIXIR and then gently pat it in. Let your skin breathe!

CLEANSING GEL

APPLICATION: Put 2–3 pumps of the mild gel onto a pad or your dampened hand and rub until a fine mousse is produced. Massage your face with gently circling movements. Wash your face this way morning and night. This cleansing prepares your skin ideally for absorbing active agents applied later.

SERUM ANTI-AGE COMPLEX

APPLICATION: For optimum effect apply 3–4 pumps to cleansed face and neck morning and night and then apply your skin care product as usual.

TIP: The serum is ideally suited to enhancing the effect of your CREAM or INTENSIVE CREAM. Just 1–2 pumps are enough.

CREAM ANTI-AGE COMPLEX

APPLICATION: Use morning and night. After thorough cleansing and toning with our ELIXIR, spread on the skin and gently massage in.

TIP: At night, alternating with the CREAM, we recommend spraying on the ELIXIR or alternatively gently patting in the SERUM. Let your skin breathe!

DEEP CLEANSING MASK

Treat your skin once or twice a week to a gently deep cleansing moisture mask.

APPLICATION: After thorough cleansing, spread on the skin and gently massage in. Wait 5-10 minutes and then wash off with warm water.

TIP: Should the mask become dry during the treatment, we recommend spraying on ELIXIR. It refreshes and provides your skin with valuable plant extracts.

INTENSIVE CREAM ANTI-AGE COMPLEX

APPLICATION: After thorough cleansing and toning, spread on the skin and gently massage in. Allow yourself a brief rest, then dab off any residue.

TIP: The INTENSIVE CREAM can also be used as night cream.

INTENSIF SERUM EYE CONTOUR

APPLICATION: For optimum effect apply 1-2 pumps evenly to cleansed skin morning and night and, using your ring finger, carefully pat in around the eyes.

A SCENT – AN EXPRESSION OF YOUR PERSONALITY

Our ANIKA perfumes are a very special rarity!

Our ANIKA perfumes are a very special rarity!

They are made exclusively of natural essential oils and are free of any synthetic fragrances or colorants.

The scent you emit is an expression of your personality. It surrounds you with your personal atmosphere and conveys to people who come near you an expression of your lifestyle.

Our fresh, warm and sensual compositions for men and women encapsulate the incredible wealth of nature, which enlivens every sense. And as they are totally natural, they deploy their aromatic power bringing us into direct contact with nature, which is otherwise so often missing in our modern everyday routine.

ANIKA FOR MEN The intense, memorable fragrance for men who know what they want. It is characterized by citrus accords, which ally themselves with the aromatic woody notes of patchouli, sandalwood and vetiver on a warm underlay of oak moss.

ANIKA FOR WOMEN A scent full of freshness and sensuality that lets you savor in a new way the lightness of being. After the light, fresh top note, you discover the scent's warm heart with patchouli and sandalwood. A hint of balsamic essence and full-bodied rose complete this fragrant creation.
